

Instructions from Ancestors – exhibition notes

(reference video here: <https://vimeo.com/785881941>

pw: show)

- Right channel film on projectionist's right projector,
Left channel film on projectionist's left projector;
linear polarizing filters, silver screen, and glasses
ready 😊
- Focus projectors separately, stop each when you see
the countdown 2.
- Start audio (audio is on the reference video as well)
- Start both projectors at **00:45 sec** on the audio.
- Please douse projectors at the end and let the audio
play (another 15 sec) then fade it out.
- Not necessary to be frame accurate - within a few
frames is fine
